

Suggestions for who you should reach out to in your community to help implement safety measures, create and install signage programs, and work on dam removal or mitigation projects:

State Department of Natural Resources	
Nature Conservancy groups	
Town/City/County Community Development	
Town/City/County Parks and Recreation	
Canoe/Kayak/Paddling clubs	
Local river advocacy groups	
Local outdoor recreation outfitters and canoe/kayak liveries	
Town/City/County public safety officers, i.e. Police and Fire Department chiefs	
Local riverfront development groups	

Local college or university departments of science, biology, ecology, environmental studies, etc.

Any individual or group passionate about rivers and/or public safety

Dam and riverbank property owners

Many counties use GIS (Geographic Information System) websites for property information, which makes finding property
